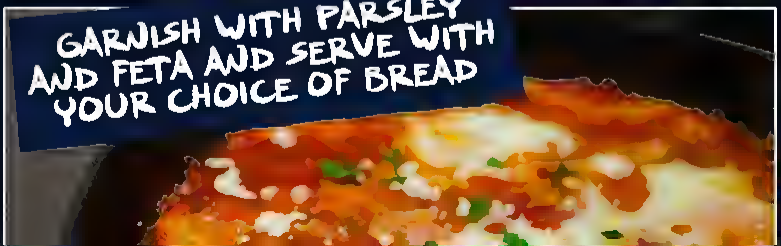
BAKE @ (175°C)

FOR 10-12 MINUTES OR JUST UNTIL THE EGGS HAVE SET

IF YOU'RE USING A PAN YOU CAN'T PUT IN THE OVEN JUST CONTINUE COOKING ON THE STOVE TOP UNTIL THE EGGS ARE COOKED TO YOUR LIKING



THE NOTES

- Again, if you don't have a cast iron skillet just use a regular skillet and don't bake it. Just let the eggs cook on the surface to over-easy or your desired egg doneness.

- Thanks to the people who recommended Shakshuka. It's already become a staple in my kitchen.

- Most kinds of bread are good to serve this with, but naan has been my favorite so far.

- The game in the screenshot is Hitman (2016). It took some flak for its weird episodic release schedule but after it all shook out, it is now easily the best Hitman game ever made and one of the best games of 2016.

AND AS ALWAYS
